**FOR GOVERNOR.**

The Asheville Citizen dies at its mast head the name of Z. B. Vance for Governor, and General W. R. Cox for Lieutenant-Governor, subject to the action of the Convention, —an excellent suggestion, subject to the action of the Convention.

**HOMESTEAD AND PRE-EMPTION.**

The bill introduced by Mr. Bontell in the Senate on Wednesday, touching the pre-emption laws, is a striking instance of the immense accumulation of valuable property concentrated in a very small space, examples which can only be presented in a commercial mart of the magnitude of New York. Six hundred thousand dollars represents the loss of a single firm; five hundred thousand of another; and on a space less than half the size of one of the squares of Raleigh, a total loss of upwards of three million.

THE Philadelphia Times thus speaks of the United States Senate, reaching the same conclusions the News reached some days ago. The Times is a Republican paper, but Liberal.

And this is the United States Senate, about which cluster memories of Clay and Webster and Calhoun and Benton and Wright; the Senate that must admit a characterless adventurer, whose election has been declared a fraud by both branches of Congress and is accepted by the civilized world, simply because the majority may become a minority by the infatuation of its own members. It is feared that Brown and Sander and West and Dorsey and Patterson may be expelled upon overwhelming proof that the only title they have to their seats is the offspring of unblushing fraud, and that anti-Republicans may take their places; therefore Pinckney, whose title is an already adjudicated and pronounced fraud, must be admitted. Is this the Republicanism upon which the nation will be called to pass judgment in the Centennial year of 1876?

**RELIEF FOR THE PEOPLE.**

IT becomes more evident day after day that Congress can do little with the currency to satisfy the pressing wants of the country. What is to be done, ought to be done speedily, to put an end to this continued din of falling houses and the crash of exploded enterprises. It attends every operation of business, and there is but one single idea put forward to encourage failing hopes, and that is the chimera of resumption. A grappling with the facts of this question shows it to be impracticable either under the operations of the existing resumption law or under the conditions of business and readiness for so momentous a measure. The sagacious Secretary of the Treasury says that the law is impracticable, and his authority ought to be convincing. Bill after bill is introduced into Congress for a repeal or modification of the resumption law. Ex-Senator Carpenter, representing the great Northwest, has taken the field against it. It was a party measure of the last Congress. The pride and the consistency of the Republican party are involved in it. It cannot afford to retrace its steps and go before the country self-confessed as a failure. Therefore, if a bill for repeal should go through the House, it might, and most probably would, fail in the Senate, and certainly would receive the veto of the President.

The Durham paper is only about half right in our reference to its new born zeal for the interests of its community. It is true we have on several occasions published full statistics of the flourishing town of Durham, obtained on the spot from gentlemen of Durham, which we gave to the world as a subject both of State and county pride. They were widely noticed in other papers. We did on one occasion express some regret that the editor of the *Tobacco Plant* had not availed himself of information which he has never yet given to his readers. Their exclusion from its columns was due to other motives than "long-windedness."

The eagerness of the editor to censure has over-reached itself. So far as his day of publication was concerned, the error and its correction stood side by side. The choice was his. It is said that truth rarely overakes error. This is so, because those interested in the progress of the latter, throw themselves in the way of truth and obstruct its course. This is human nature and the editor of the *Tobacco Plant* is no exception to its workings.

WE ARE glad to see a movement made to carry out a long agitated and partly executed scheme—executed as far as surveys go—of immense importance to the eastern part of North Carolina. Senator Merrimon introduced a resolution on Wednesday requesting the Secretary of War to furnish the Senate with the maps, diagrams and estimates made in pursuance of the Act of March,

1875, to connect the waters of the Cape Fear at or near Wilmington with the harbor of Norfolk. This is a measure of national importance as adding another link to the line of interior navigation along the coast of the United States, a measure of immense importance in the event of war. But it is of special moment to the people of Eastern North Carolina. The proposed line not only opens up to it facilities for market from which it is now excluded, but the operations of opening this system of navigation will embrace and perfect a system of drainage by which many thousands of acres of valuable land, now useless because saturated with water, will be brought into cultivation, and forests of valuable timber be utilized.

A scheme embracing some of these same objects was before the Legislature last winter, but failed under the suspicion of originating in interested motives, or because its benefits were merely local. The State might be grateful to any interested movement that would reclaim a wilderness and make it the abode of human industry, and sectional interests lost their offensive prominence when it is remembered that the increased valuation of property in any one part of the State diminishes the proportion of taxes levied upon the whole State. That has been the fatal obstacle to the prosperity of North Carolina, the failure to recognize it on the part of one and one in destiny, and the legislation for one section against the jealousies, the prejudices or the indifference of every other section.

**LAW AND ORDER.**

### NOON DISPATCHES.

#### CONGRESSIONAL.

WASHINGTON, Feb. 10.—In the Senate, Caperton, of West Virginia, introduced a bill to aid the Washington & Ohio Railroad Company in constructing its road to the Ohio River. Referred to the Committee on Railroads.

The Texas Raid Committee heard Adjutant General Steele, of Texas, and Lieut. Col. of the regular army, commanding on the border. The testimony of these gentlemen fully confirms the worst features of information already before the committee. Gen. Ord will be heard to-morrow.

The Elections Committee will decide Bienville vs. Haralson on Monday and take up Finley vs. Wall from Florida. The committee have adopted the rule of the last Congress to have cases from the States as they came alphabetically. This places Platte vs. Goodwin on the docket, but there are assurances that the case will be reached this session. This arrangement of the docket was supported by the Republicans on the committee, and the assertion that Judge Harris, chairman, is holding back Platte vs. Goodwin is unfounded in fact.

The Territorial Committee of the Senate will report unanimously in favor of New Mexico as a State.

The Appropriation Committee of the House heard Bristow this morning.

#### French Affairs in Brief.

PARIS, Feb. 10.—An official decree is published this morning appointing M. Voisin prefect of police, and giving his department under the control of the ministry of the interior as before 1873.

M. Voisin is a reactionary deputy. Yesterday's *Moniteur* was reporting the name of his appointment, said it would probably grieve the friends of the President MacMahon and of the constitution. Baron Haussmann has issued an address to the electors of the first arrondissement of Paris. He says, in offering himself as a candidate for the chamber, he has solely in view the interest of the city of Paris. He expresses regret at the regime to which France and Paris were so much prosperity, but he will not be hostile to the present constitution which he thinks should be applied in perfect good faith.

#### Two More Molly Maguires Arrested for Murder.

PORTVILLE, PA., Feb. 10.—Last night Chas. McElster and Patrick Mauley were arrested in Mahanoy city for the double murder in September last of Thos. Sanger and William Wren. The former was a mining boss, and the latter a miner at Heaton's Colliery. Saturday has been fixed for *habeas corpus* hearing in the case of the man charged with the murder of policeman Yost at Tamaqua some months ago.

#### Another Bank Robbery.

NORWICH, CT., Feb. 10.—A special dispatch from New London says, the bank of Commerce there was robbed by burglars on Tuesday night.

Wednesday the bank clerks were unable to open the vaults, an expert accomplished it at night and a loss of \$1,500 dollars was then discovered. This gave the burglars between 24 and 36 hours start.

#### Triumph of the French Syndicate.

LONDON, Feb. 10.—The *Times* in its financial article says, the Cairo dispatch yesterday announcing that the Anglo-Egyptian bank has advanced large sums of money to Egypt, portends the triumph of the French syndicate, the Bank in question being practically a French institution.

#### Ticket Agents Convicted—Centennial States.

LOUISVILLE, Feb. 10.—The General Railroad Ticket Agents' Convention recommend the round trip tickets from competing points south of the Ohio River for 30 days at 25 per cent. discount to New York, and to Philadelphia one dollar less.

All the naval vessels at Key West are ordered to sail for Port Royal to-day.

In the English purchase of the Suez Canal, the Rothschilds get 2½ per cent on twenty million pounds lent the English Government.

Ferrier & Co., an old established iron house at Montreal failed for \$45,000. In the same place, Ireland, Ivy & Co. Hardware house failed for \$100,000.

#### MIDNIGHT DISPATCHES.

##### Blaine's speech on the Currency.

WASHINGTON, Feb. 10.—Blaine announces the honor of the national government and the prosperity of the American people are alike menaced by those who demand the perpetuation of an irredeemable paper currency. He says "until this is definitely adjusted, it is idle to expect any measure of prosperity for any section that one great section of the Democratic party possibly its controlling power stands stubbornly in the way of such adjustment. He gives a full history of monetary events alluding to a resumption in '70 act, he says it fixes a day but gives no adequate process for a resumption to the duty of congress to provide process. In legislation to that end unless we move in harmony with the great business interests of the country, we shall assuredly fail."

##### More of the Babcock Trial.

ST. LOUIS, Feb. 10.—Witness Everest said that Joyce once sent him to the Sub Treasury with a package of 1,000 dollars in small bills to get two hundred dollars bills, he took them envelope and told him to take them across the street and put them in the telegraph box. The witness said he did so, he was then asked if he had observed the direction on the letters. Before he could answer, the defense interposed an objection claiming that the prosecution were now trying to show that Babcock's name was on the one letter and that the evidence was not competent. A long argument ensued.

Mecklenburg farmers are anxious for snow, think it would help the wheat.

The ball passed through a plank in the room where the prisoners were confined, and struck one man in the arm and passing on, lodged in the body of another. The wound of the former one was slight, that of the latter has since proved fatal.
